EDUCATION

The University of Houston | GPA 3.72

Bachelor of Business Administration in Management Information Systems, *Minor Supply Chain*

Houston, TX

May 2025

PROFESSIONAL EXPERIENCE

KPMG | *Google Cloud Engineer* | Mclean, VA

August 2025 - Present

- Automated Workload Identity Federation setup for a client using Terraform, enabling secure authentication between GitHub Actions and GCP without service account keys, improving security and streamlining CI/CD workflows
- Implemented infrastructure changes for a client by enabling GKE backup functionality using Terraform, improving cluster resiliency and recovery capability
- Implemented and configured a BigQuery module for a client using Terraform, enabling consistent dataset and resource provisioning while improving data accessibility and standardizing infrastructure deployment

Hewlett Packard Enterprise | *Hybrid Cloud Program Manager Intern* | Spring, TX

May 2025 - July 2025

- Led the technical integration of Zerto's software package post-acquisition, utilizing Lucidchart to map complex pre- and post-acquisition workflows and identifying critical funding and staffing gaps for senior leadership
- Managed project health and delivery KPIs using Jira dashboards to track blockers and velocity, facilitating cross-functional alignment between engineering, finance, and supply chain to protect \$5M+ in annual revenue
- Developed an AI-driven anomaly detection prototype for sales quotes, managing the project from experimentation to deployment to reduce manual rework by 20%

SLB | *Digital Talent Academy Intern* | Houston, TX

May 2024 - May 2025

- Replaced manual Excel-based tracking with a centralized Power BI semantic model and dashboard, automating data pipelines from SAP SuccessFactors and internal systems to track employee promotion lifecycles
- Led a technical workshop for 50+ stakeholders on system best practices and data-driven outreach, resulting in a 90% adoption rate and a 15% increase in promotion efficiency

KPMG | *Technology Enablement Intern* | Mclean, VA

June 2023 - August 2023

- Managed a 6-week technical discovery and implementation sprint for a Tableau-based KPI tracking system, distilling fragmented client data into a prioritized list of high-impact metrics
- Designed automated compliance workflows in Appian, reducing processing time by 30% and ensuring alignment between technical deliverables and business priorities.

PROFESSIONAL DEVELOPMENT

JPMorgan Software Engineering Virtual Experience Program | *Participant* | Remote

June 2024

- Implemented a live data feed visualization using Perspective to provide traders with a clear and visually appealing monitoring tool
- Diagnosed and fixed all the issues in the broken client data feed script, ensuring accurate and reliable data processing

Extern | *HP Venture Capital & Business Analytics Extern* | Remote

April 2024 - July 2024

- Performed market research on 20+ potential deals, analyzing trends to provide actionable insights and ensure strategic alignment
- Pitched a startup to two key stakeholders, leveraging AI insights and investment strategies to align on potential opportunities

LEADERSHIP EXPERIENCE

Asian Business Student Association | *Mentor* | Houston, TX

August 2024 - May 2025

- Planned over 8 socials for the whole program with a budget of \$750, increasing the retention rate among members to 96%
- Coordinated with 5+ alumni to create a rotational mock interview program to help mentees prepare for upcoming interviews

Asian Business Student Association | *Vice President of Corporate Relations* | Houston, TX

December 2022 - May 2023

- Worked cross-functionally, leading the Corporate and IT teams to create a database, increasing internship placements by 20%
- Designed a deliverables tracker that monitored 10 events, resulting in 100% project completion rates and smooth execution

ADDITIONAL INFORMATION

Software: Terraform, C#, Java, SQL, HTML, Excel, Power BI, SAP, Python, Appian, Amazon Web Services, Jir, GIT, Snowflake

Certification: GCP Associate Cloud Engineer, GCP Professional Data Engineer, GCP Professional Machine Learning Engineer
